

Music to Grow On

This class is designed to provide a fun and rewarding experience for preschoolers (ages 3-5 years old) that will create a love for music and worship!

Each 45 minute class will offer interactive musical activities including singing, listening, dancing, and finger plays. A number of musical instruments are introduced to your preschooler such as handbells, percussion instruments, resonator bells, Orff (xylophone) and more!

We also include time for worship and prayer! These activities will engage your young child and will give them the foundation they need to grow in their musical experience. The class instructor is **Kathie Pagliaro**.
